Bhopal, Madhya Pradesh

Key Skills

SQL: Query Optimization, Joins, Subqueries, Window Functions, CTEs, Indexing, Stored Procedures, Data Normalization

Python: Pandas, NumPy, Matplotlib, Seaborn, Data Wrangling

Advanced Excel: Pivot Tables, Charts, Lookups, Dynamic Arrays, Power Pivot, Conditional Formatting, Data Validation

Power BI: ETL, DAX, Power Query, Data Modelling, Data Cleaning, Data Visualization, Publishing, Report Optimization

Projects

Retail Sales Performance Analysis [PostgreSQL]

[GitHub ↗](#)

PostgreSQL · CTEs · Window Functions · Subqueries · Data Analysis

Designed and populated a normalized 5-table e-commerce database (250 customers, 36 products, 400+ orders) and performed end-to-end retail business analysis using PostgreSQL.

Answered 12 real business questions covering revenue trends, MoM growth, customer segmentation, churn detection, and city-wise performance using CTEs, Window Functions (LAG, DENSE_RANK), and Subqueries.

Derived actionable insights: identified top revenue-driving categories, flagged churned customers with no orders in 6+ months, and tracked cumulative revenue growth across 2022–2024.

Data Analyst Job Salary Dashboard [Excel]

[GitHub ↗](#)

Excel · Data Visualization · KPI Dashboard · Dynamic Arrays

Analyzed a real-world dataset of 33,000+ data job postings (2023) to build an interactive salary dashboard for data professionals across roles, locations, and employment types.

Implemented 3 real-time KPIs (Median Salary, Job Count, Top Job Platform) using XLOOKUP, FILTER, SORT, COUNTIFS, and a custom MEDIAN-IF formula to dynamically respond to slicer inputs.

Visualized insights via a bar chart (salary by job title), horizontal bar chart (salary by employment type), and a choropleth world map; all charts update live with filter selections.

Personal Portfolio Website [HTML / CSS / JavaScript]

[Live Site ↗](#)

HTML · CSS · JavaScript

Designed and deployed an animated personal portfolio showcasing projects, skills, and contact information with smooth CSS animations.

Built fully responsive with fluid clamp() sizing; features email copy-to-clipboard with toast notification and GitHub/LinkedIn social links.

Education

SAGE University, Bhopal

2024 - 2027

BCA – Artificial Intelligence & Data Science | CGPA: 7.79
